### Important additional information for social enterprises, CICs and other companies

As a model it is expected that all forms of social enterprise should have a tradable service or product that generates funds for social benefit. Grant funding will only be available to support this social benefit element. Social enterprises applying to the Foundation must clearly demonstrate the activity for which they are seeking funding not a tradable asset or service i.e. not an activity that would ordinarily generate income for the business.

All social enterprises, including Community Interest Companies, must demonstrate a reasonable percentage of their income has been earned through trading (usually 50% or more will be considered a reasonable percentage). Social enterprises will be asked to provide a breakdown of their income streams, quantifying the income from grants and the income from trade, to verify this.

### All social enterprises must also demonstrate within applications that:

- the company has been registered for a minimum of 12 months
- the application is made for costs to deliver the project not managing the CIC
- there is clear evidence of need (consultation etc.) from the community and the benefit must also be clear
- the project or activity for which funding is sought is charitable i.e. it must not be part of the trading services for which they would usually have a charge
- sessional costs are in line with an appropriate pay spine structure.

### **Expected policies**

In managing your organisation, we would expect that the appropriate policies are in place. These should include (if appropriate) but not be restricted to:

- safeguarding policies and procedures for children and vulnerable adults
- public liability insurance
- employer's liability
- equality and diversity
- disclosure and barring service (DBS) checks carried out and in place for all paid and unpaid volunteer staff working with children and vulnerable adults
- suitable planning permissions and/or other regulations approval are in place prior to the commencement of any improvements to building or land as required.

While we may not always ask that these are submitted with all applications, we do anticipate that you hold appropriate assurances and that these can be produced upon request.

### **What kind of projects are eligible for grant assistance?**

Grants will be available towards capital costs of purchase as well as for associated maintenance, revenue, or project management fees which could include salary costs. Management fees should not normally exceed 10% of the grant value. Feasibility assessments will not be eligible for funding. Areas we are interested in include but are not limited to:

Groups can apply for up to £5,000, which must be spent within a 12-month period. Further applications would be welcomed subject to satisfactory completion of original award. Please note that the grant will be paid in arrears, on submission of appropriate evidence that all work and activities have been completed satisfactorily. Alternatively, suppliers and contractors can be paid directly by the Foundation where required.

Under no circumstances will grants be awarded for activities that have taken place prior to an offer of funding. You must apply for and be approved for grant funding before any project work or activity takes place. This includes placing any orders for equipment or works to be undertaken.

**In certain circumstances it may be possible to request assistance with the cash flow of your project spend if you can show that you are currently unable to afford the expenditure from your reserves. You may request up to 50% of your project costs in advance to start your project.**
